Here are the websites for the 2 graphic designers who have kept in touch through the process:

[morewhitespace.co.uk](http://morewhitespace.co.uk)

[whittledesignstudio.com](http://whittledesignstudio.com)

There are examples of work on both sites and both are very willing to work with us to achieve what we're looking for (when we know what that is!). Could everyone have a look and give their preference.
