None.

4. Any updates on Sustainable Energy support.

David Osbourne-Broad and Judith Summers will meet to discuss the application of this further. Update to next meeting, or beforehand via e-mail.

5. Sarah Furley topics feedback.

As members of the NHEG were present, this was run through and explained. Copy of matrix etc... to be sent by Dot to Esther. Feedback from Sarah following our updates has been circulated and will be examined further. The Penwith Landscape Partnership are doing research that will be very beneficial to the NDP, and Grenville is maintaining close links with them.

6. Next steps.

Discussion followed regarding the amalgamation of the BEG and the NHEG, and all at the meeting agreed this was a good way forward. To be ratified by the Steering Group and other members.

Following advice from SG and from Sarah Furley, it was decided that individuals within the group could pull together lots of the required documentation ready for the next meeting.
